

## OVERVIEW

This job aid details the desktop set-ups that are needed for running Financial Management System (FMS) Reports and RU Saved Queries. After completing all setups sign out of the financial management system and close your browser so the setting can register. These are one time setups.

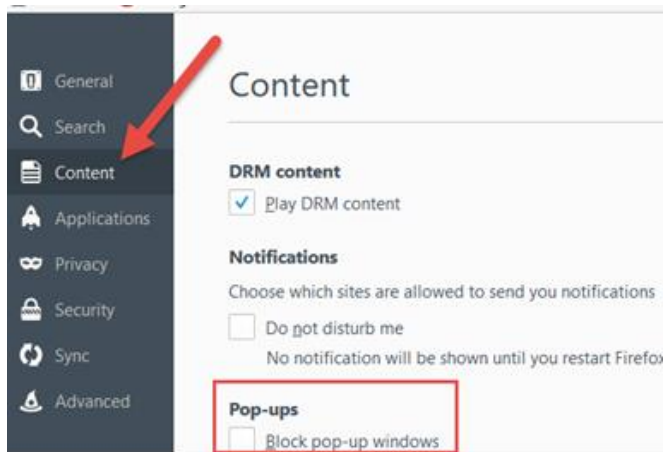

## POP UP BLOCKERS - TURN OFF

Pop Up Blockers should be turned off before you run a report.

1. Make sure to use Firefox as your browser. Turn off pop up blockers by: Opening Firefox. Click **Tools> Options**.

2. Click on the “**Content**” tab. Remove the check mark in the “Block pop-up windows” box.

## SETTING THE POINT OF VIEW (POV) PREVIEW FOR FINANCIAL REPORTING CENTER REPORTS

The Point of View (POV) preview option makes it easier to see the default parameters or select new report parameters for a financial reporting center report.

1. After you login to the financial management system, click the **Financial Reporting Center**.

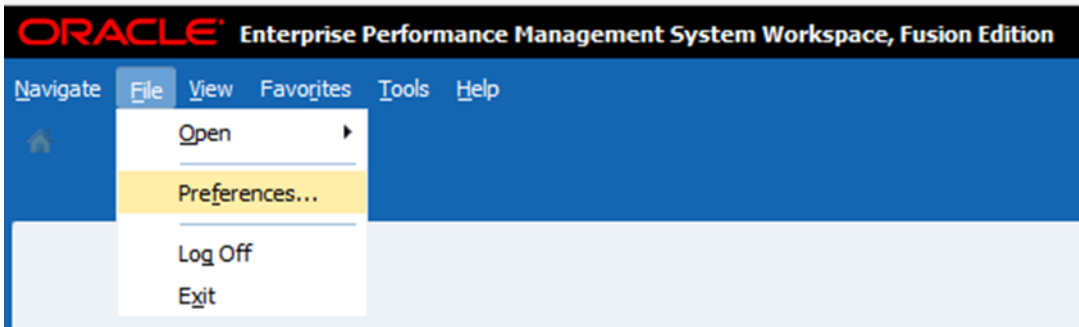

2. In the Financial Reporting Center, click the **Tasks** icon.

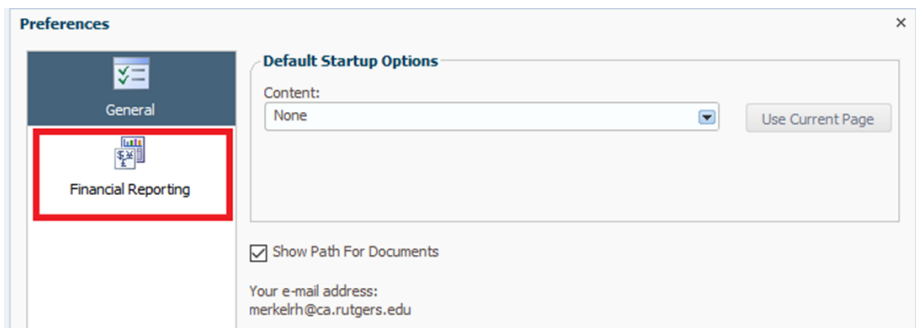

3. Click the link to **Open Workspace for Financial Reports**.

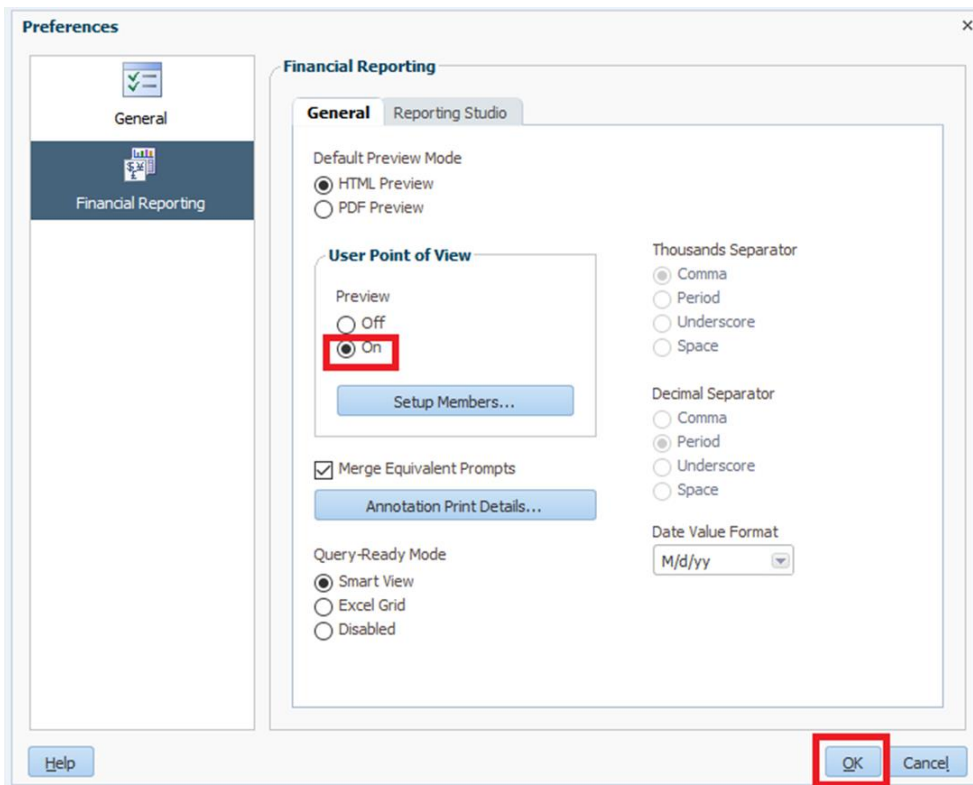

4. Once the workspace for financial reports open, select **File> Preferences**.

5. Click the **Financial Reporting** icon.

6. Select **Preview On** and click **OK**.

With the preview option enabled, when a financial reporting center report is selected, a **point of view (POV ) window** will display.

This report/book runs for the members on the user Point of View listed below.
